

Washington Monument

The Washington Monument stands 555 feet tall. In 1853 the money for building the monument ran out when it stood 152 feet tall. It is two colors because it is made of two different stones.

White House

The White House's address is: 1600 Pennsylvania Avenue. The White House has 132 rooms. The White House has a Vermeil Room. In the White House a desert was invented...ICE CREAM!

Lincoln Memorial

The Lincoln Memorial was built to help remember Abe Lincoln. Some give speeches there. There are many columns that hold up the memorial.

The Capitol Building

The Capitol building has more than 19,000 people working in it. The Congress has meetings in the Capitol building. The building has a very tall rotunda.

Washington D.C.

by Noah

The Jefferson Memorial is made of limestone. Some of Jefferson's speeches are carved on the inside of the memorial.
